

Drill Rig Operator – Small Diameter

Company Overview:

Inland Foundation Specialties (IFS) specializes in construction of deep foundations, pile driving, dewatering, shoring, anchor systems and ground improvement. IFS works throughout the West including Idaho, Oregon, Washington, Utah, Montana and Wyoming.

IFS is looking for an **experienced small diameter drill operator** with 2-3 years of drilling experience. Experience with drilling micropiles, rock or soil anchors, tiebacks, soil nails, or similar type work is preferred but not required. The driller is responsible for handling the drill to mobilize, set up on locations, drill in various soil conditions. Ideally, we would like experience with Casagrande, Hutte, or Klemm drill equipment.

Essential Duties and Responsibilities:

- Operating small diameter hydraulic drills
- Direct onsite crew assigned to the project
- Responsible to maintain a safe working environment and follow IFS and OSHA standards
- Coordinate with Project Managers on project needs
- Work harmoniously with peers, supervisors, and the public

Skills, Knowledge, and Abilities:

- Operating other heavy equipment
- Proper use and understanding of drill tools and equipment
- Proper understanding of crane rigging and signaling
- Self-motivated and willing to challenge themselves

License(s) or Certification(s) Required:

- Valid Driver's License, with the ability to obtain a Class A CDL
- Medical Card
- Certifications: Forklift, Manlift, Truck, Rigging, signal person, 10-hour OSHA, etc. or the ability to obtain them. In-house training and certification may be available.
- NCCCO Crane certification is preferred but not required; in house training and certification may be available.
- Welding Experience and preferably certificated

Inland Foundation Specialties offers excellent pay, benefits and the opportunity for advancement. We are an EEOC. Pay is DOE.
